As a leading supplier of hygienic disposables for both private label and branded markets, Ontex believes that sustainable business practices contribute to genuine business success.

“The ambition is to get sustainability embedded in our Ontex DNA with clear focus on caring for people and offering products to customers and consumers without compromising the needs of future generations” - Annick De Poorter, Group R&D, Quality and Sustainability Director.

The group’s sustainability strategy has been developed to demonstrate and report against the action Ontex takes to advance broader environmental and social goals, such as the UN Sustainable Development Goals (SDGs).

Ontex strives for sustainable growth, offering responsible products at an affordable price (“Sustainable growth” principle). The group also wants to make a positive impact on society and improve people’s lives wherever it connects with them (“People at the heart” principle). Finally, Ontex strives to operate

with the ecological limits of the planet in mind so that it can support the needs of present and future generations (“Responsible production” principle).

#### Frameworks

In 2016, Ontex reviewed its material aspects (along with its main stakeholders) to take into account the United Nations’ Sustainable Development Goals (SDGs). Its materiality assessment process involving all stakeholders was disclosed in detail in a sustainability report and can be found on the group’s website. The materiality matrix shows the main themes and why they matter, the links to the SDGs and where one can find more information on the topic.
